

Jet Noise Report: Jan-Feb 2024

Since 2015 an increasing number of jet noise reports are reported by residents of the Salish Sea region, using the San Juan County Aircraft Noise Reporting Website. With the addition of 36 more Growlers in 2019 at Naval Air Station Whidbey Island, the region has been bombarded. This document provides data broken out by reports generated inside San Juan County and outside.

Beginning on page 11 read the comments made by those who submit noise reports and feel the frustration, concern, and anger.

INSIDE THIS REPORT:

- ✚ Annual Comparisons
- ✚ Monthly Comparisons. Total and by Location
- ✚ Reports by Type of Noise
- ✚ Reports by Day through the Year
- ✚ Reports by Time of Day
- ✚ Map of Report Locations
- ✚ Comments submitted with each report, revealing human impacts

It doesn't matter where you are...

Low flying, extremely loud, just above Blakeley and Obstruction Island. My Apple Watch notified me that it is damaging loud noise.

Shaw Island. It sounds and feels as though jets are right outside the house. Unbelievable roaring and this heavily built house is shaking

Not only was the noise intolerable but one Growler was flying so low that I could smell aviation fuel a minute afterward up on Mt. Finlayson at American Camp!

Low enough to see its markings with the naked eye and loud enough to cause all the kids in Tursi park to start crying.

S Lopez. Another THREATENING vibration shudders through our home & my body as explosive waves of noise come from NASWI. Disgusted with the Navy & their lies. Just disgusted. How do Larsen, Murray and Cantwell live with themselves?

All day long from about 9:30, off and on awful creepy shuddering thunder from the south. It's the daily abuse of civilians by the us navy. Anacortes near the ferry terminal on what should be a peaceful Wednesday.

At the light by DP State Park- my car shook with thunder, absolutely vibrated from the intense thunder from Growler Jet above- what happened to people outside trying to enjoy this stunning state Park- hearing damage? Mid day on a Wednesday

Came to I pick up kids from preschool. Jet flew low and directly over kids and we are in Camano. This is not right.

Navy jets have been flying over Mt. Vernon all day today. My ear canals are aching from having earplugs stuffed in them for the last six hours, but with the Navy terrorizing our region, I can't function without them.

NASWI continues to engage in "noise terrorism" unleashed on civilians who live in the Coupeville OLF area.

Understanding This Report

Listen to the jet noise that we hear in our region:

<https://sounddefensealliance.org/growler-videos-audio/>

The Navy dismisses noise data:

<https://www.seattletimes.com/opinion/navy-should-use-our-data-on-growler-noise-not-dismiss-it/>

Jet noise raises emotions.

If you are in crisis, you can call the National Suicide Prevention Lifeline 24 hours a day, seven days a week, at 988. Press 1 for the Veterans Helpline.

You can also text a crisis counselor by messaging HOME to 741741.

Crisis lines are available for all Washingtonians regardless of insurance status or income level.

Hints on reporting jet noise:

<https://www.quietskies.info/access-the-county-report-site>

The San Juan County Aircraft Noise Reporting website was approved in 2014 by the County Council for people to have a reliable place for recording their reports and comments. Data reports began in 2015.

gis.sanjuanco.com/aircraft-noise-reporting

Who submits reports? In October, 2019, permission was given for people outside of San Juan County to use this noise reporting website. We are seeing an increasing number of reports from the wider region.

Correcting Location Data

Beginning in January 2023, data reporting addresses a problem with the website's capture of location data. Many reports default to a location in the center of San Juan County (SJC) when the person does not provide their location. This artificially raises the number of reports attributed to San Juan County that actually come from outside SJC.

Here is what we are doing. Some reports with invalid location data can be corrected by their comments or other data. Next we look only at reports with valid locations to determine the normal portion of "inside" and "outside" of San Juan County. Finally we assigned the reports with invalid locations to "inside" and "outside."

Future reports likely will show more reports from outside of San Juan County than previously. Considering the smaller population base of San Juan County compared to nearby counties also affected by Navy jet noise this is not surprising. This has been the trend since 2019 when we opened reporting to outside SJC.

Annual data is continually reviewed. Clarification of duplicate reports, as well as the addition of late reports sometimes adjusts the final numbers to a few more or a few less than previously reported.

Jet Noise Reports 2015 - 2023

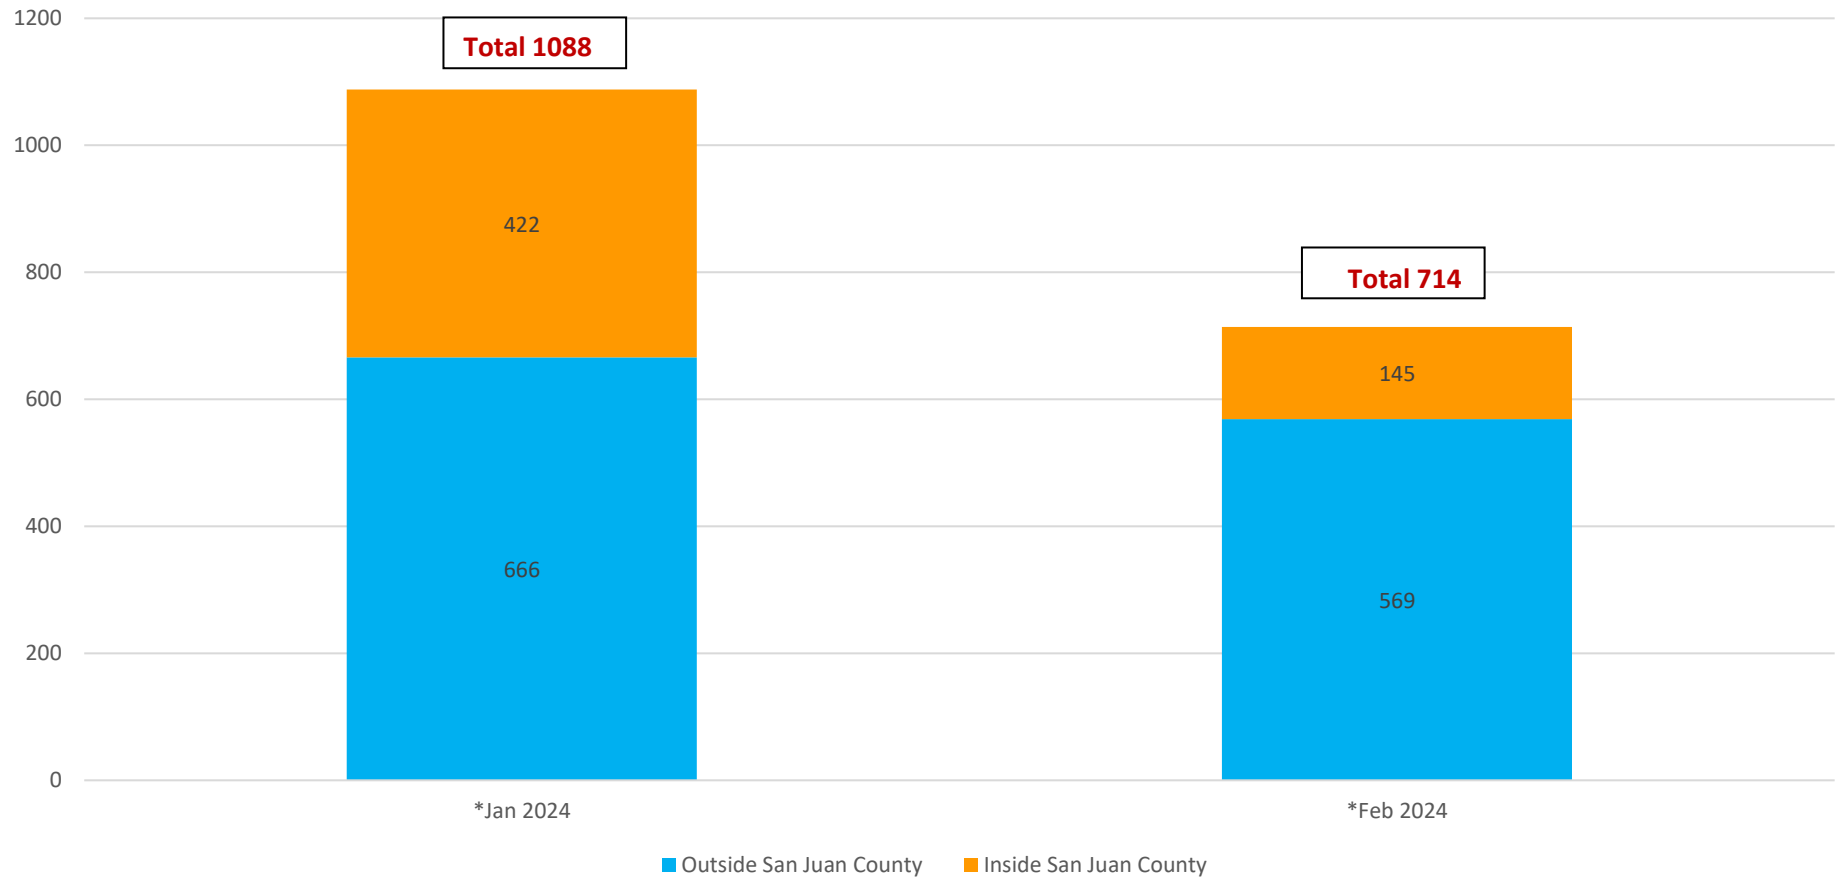

This chart provides some background to the history of noise reporting.

Jet noise reporting began in 2014 when San Juan County implemented a website for reporting jet noise. Data collection began in 2015. In the Fall, 2019, access was expanded to people outside of San Juan County enabling them to enter jet noise reports with the result that the number of noise reports is increasing, as has the number of aircraft at NASWI. This chart provides the totals of all noise reports in the database since 2015 through 2023.

Annual Reports by Location 2018-2023

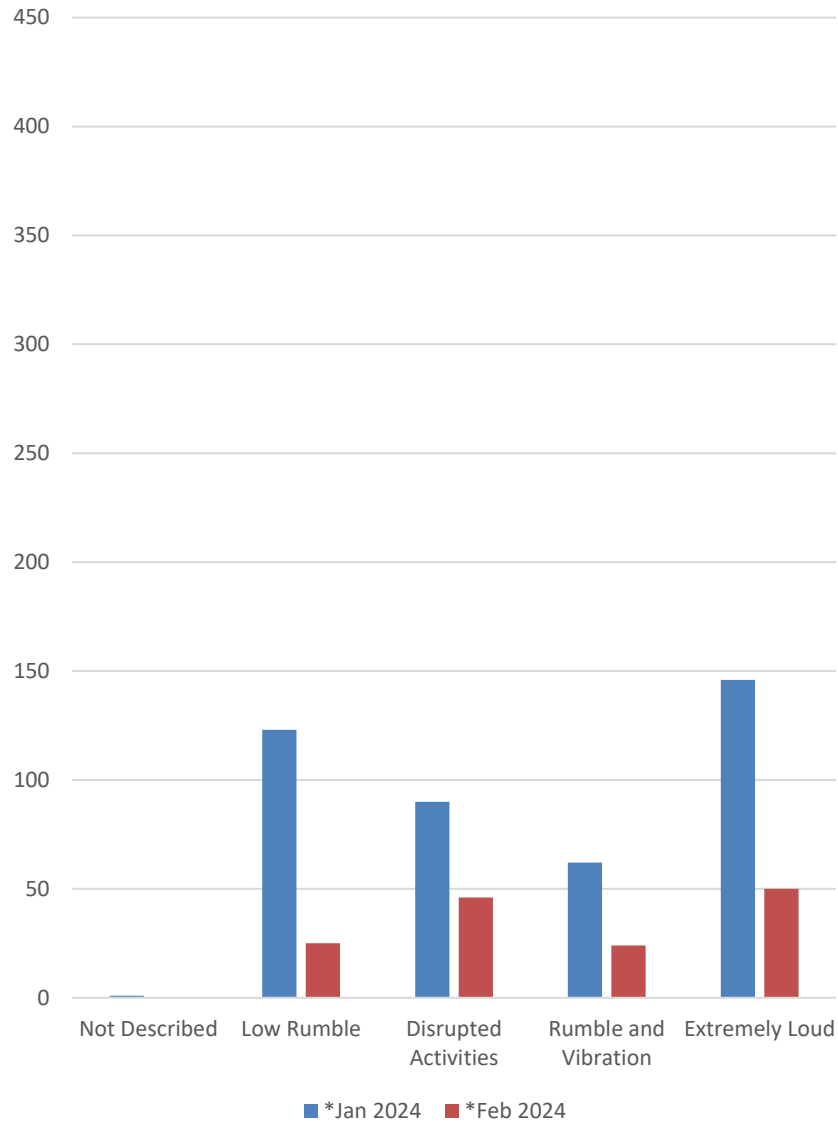

Jet Noise Reports by Location January, February, 2024

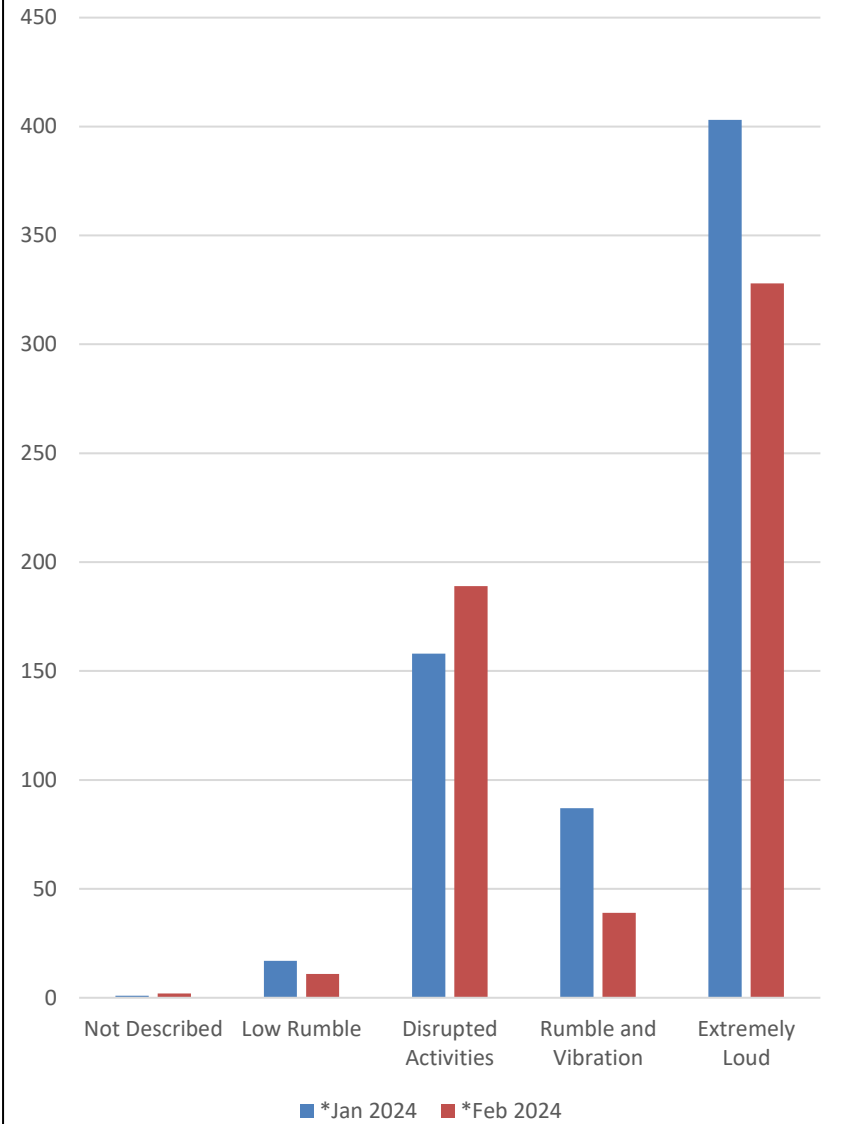

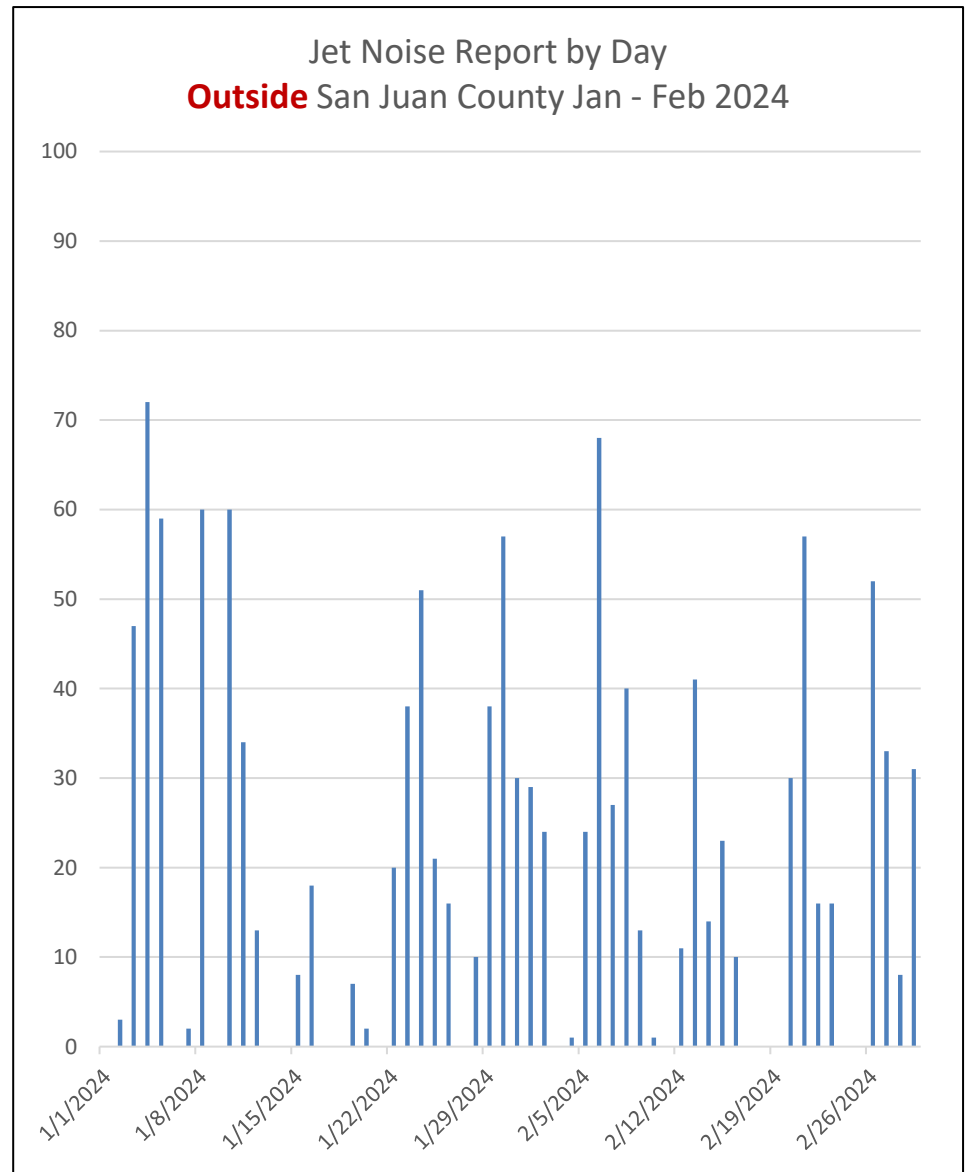

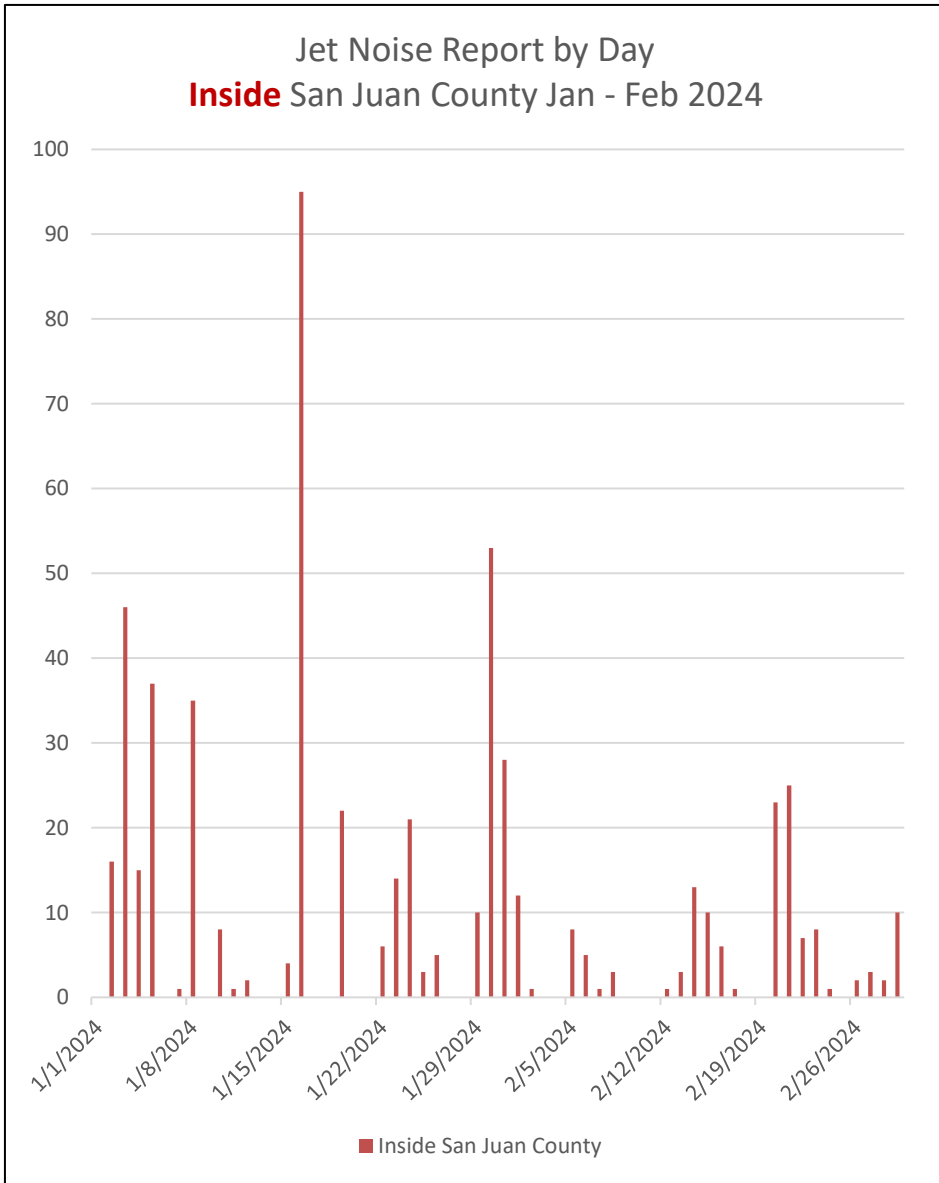

During this time period, NASWI published its carrier flight training schedule as “None” between February 12 and February 29. However, this did not seem to depress the noise incidents reported by residents on those days. See page 7.

Jet Noise Report by Type of Noise
Inside San Juan County Jan - Feb, 2024

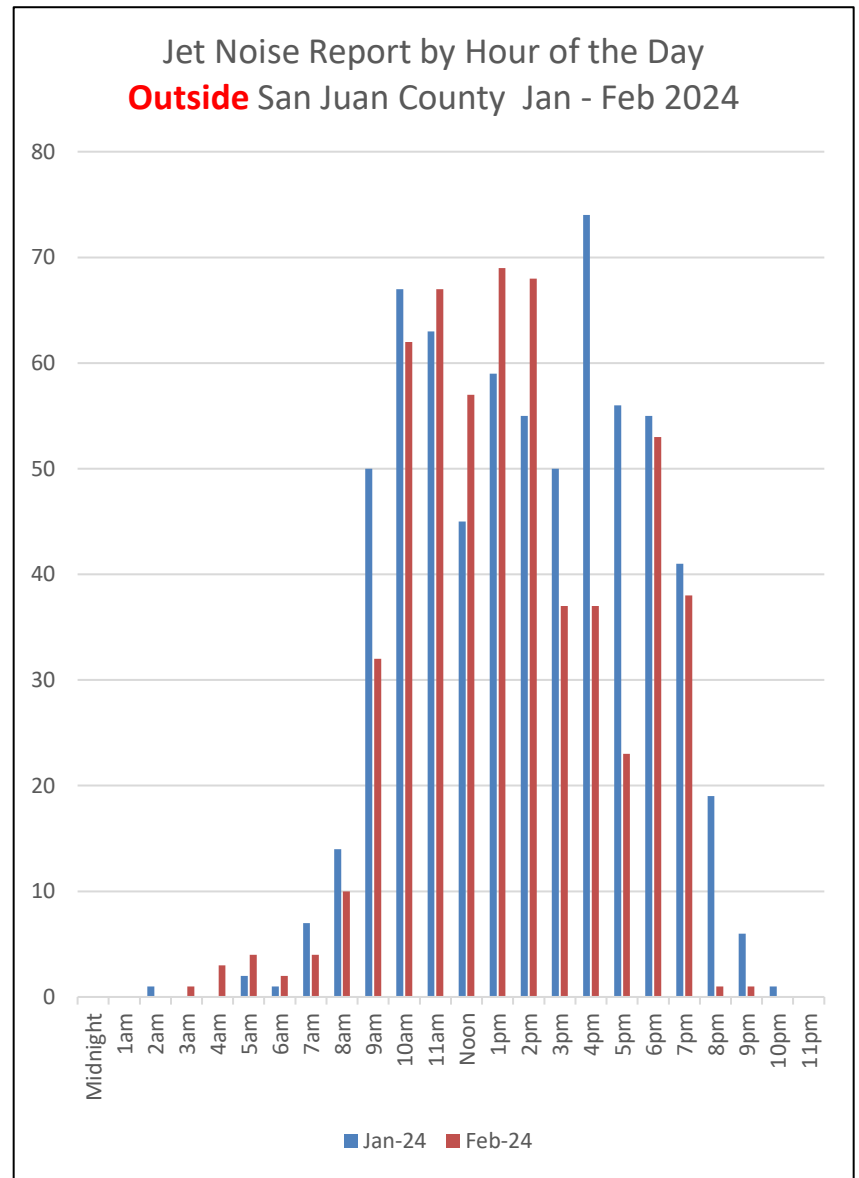

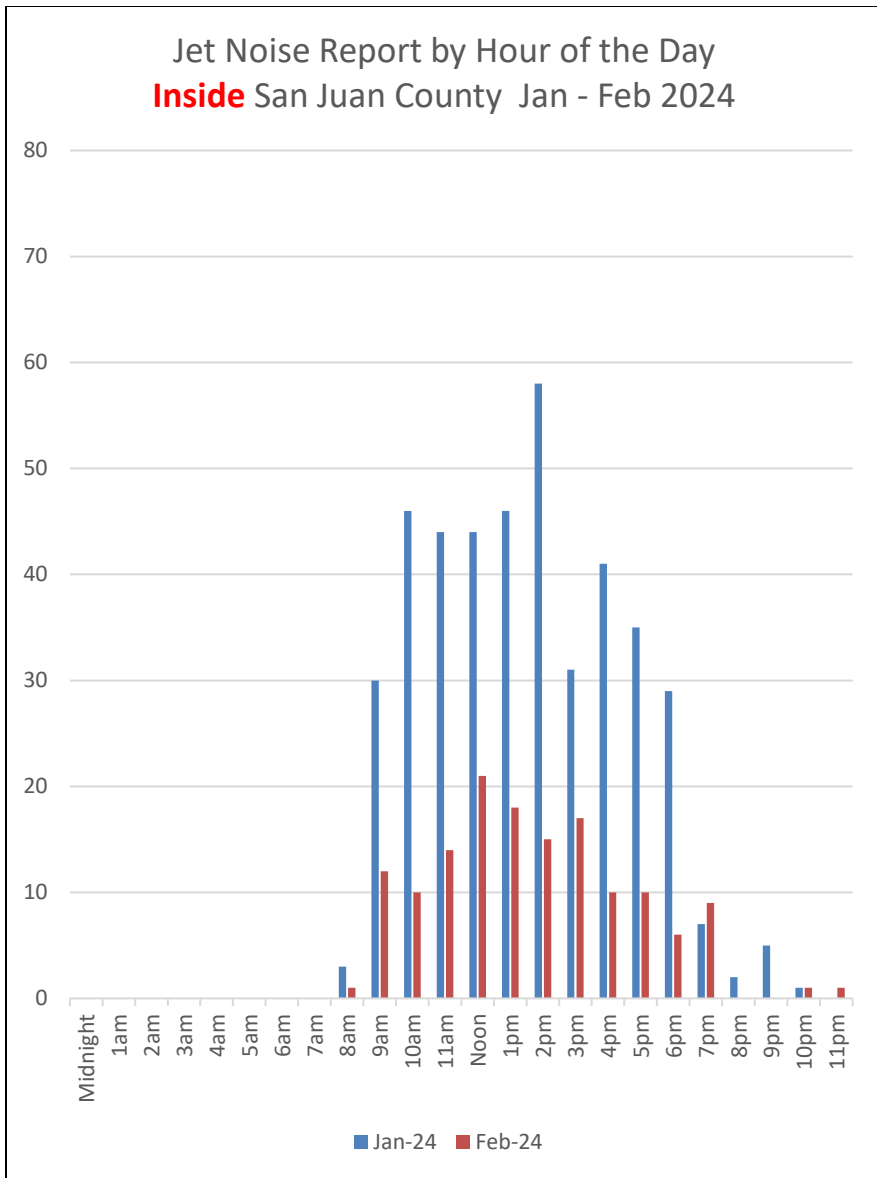

Jet Noise Report by Type of Noise
Outside San Juan County Jan - Feb, 2024

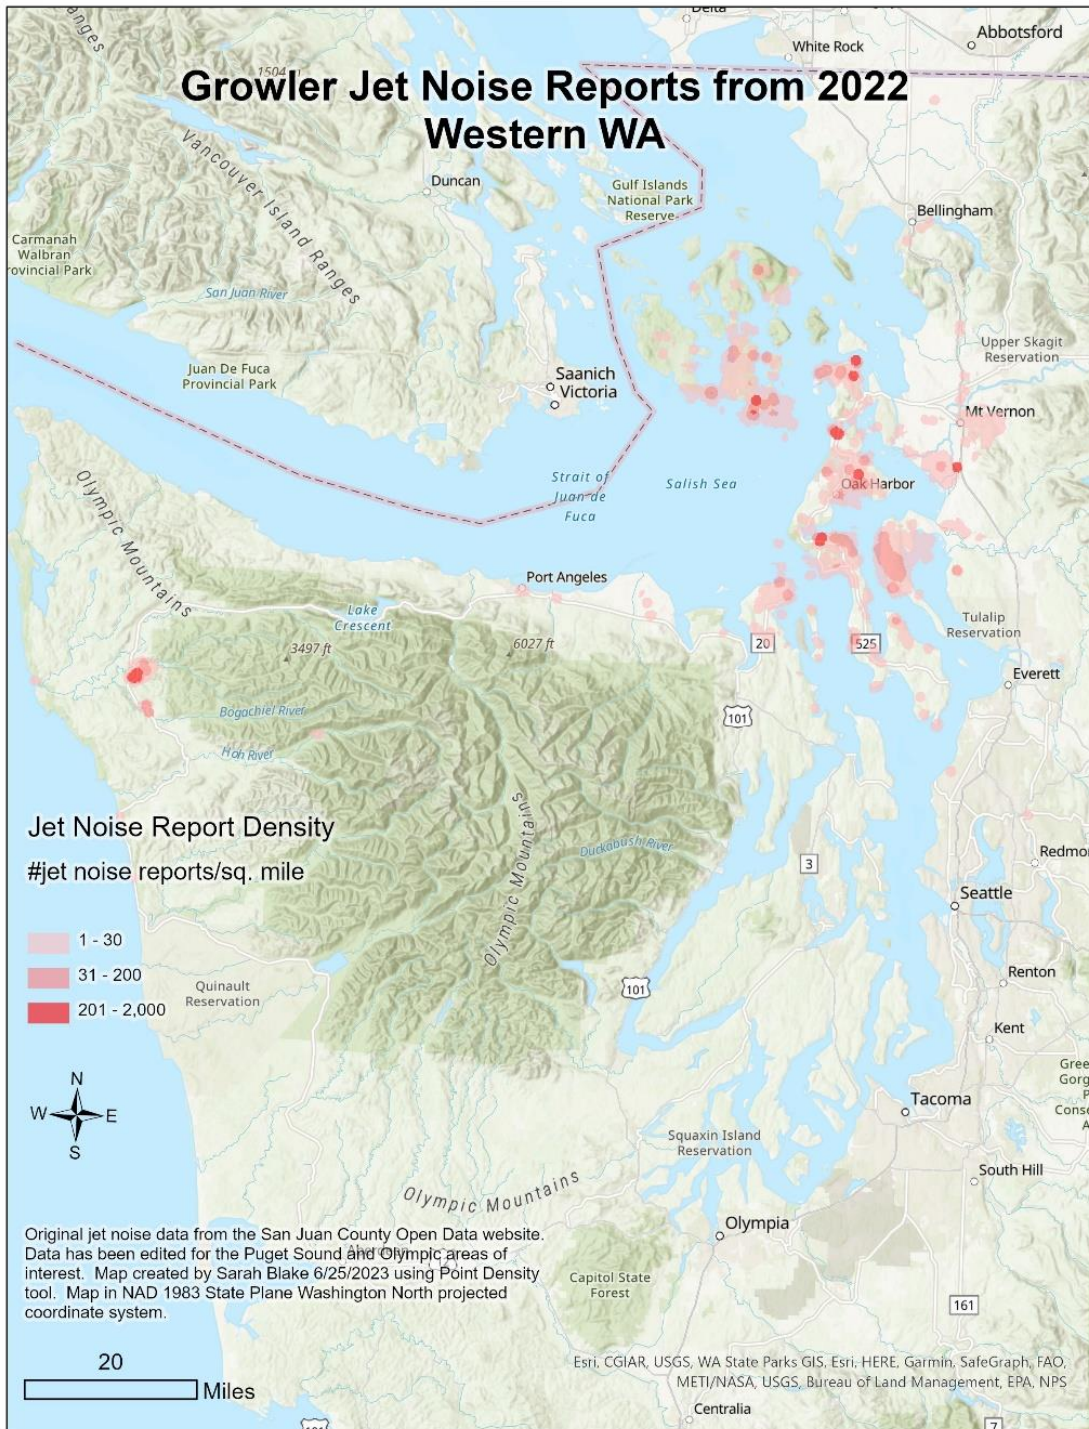

During this time period, NASWI published its carrier flight training schedule as “None” between February 12 and February 29. However, this did not seem to depress the noise incidents reported by residents on those days.

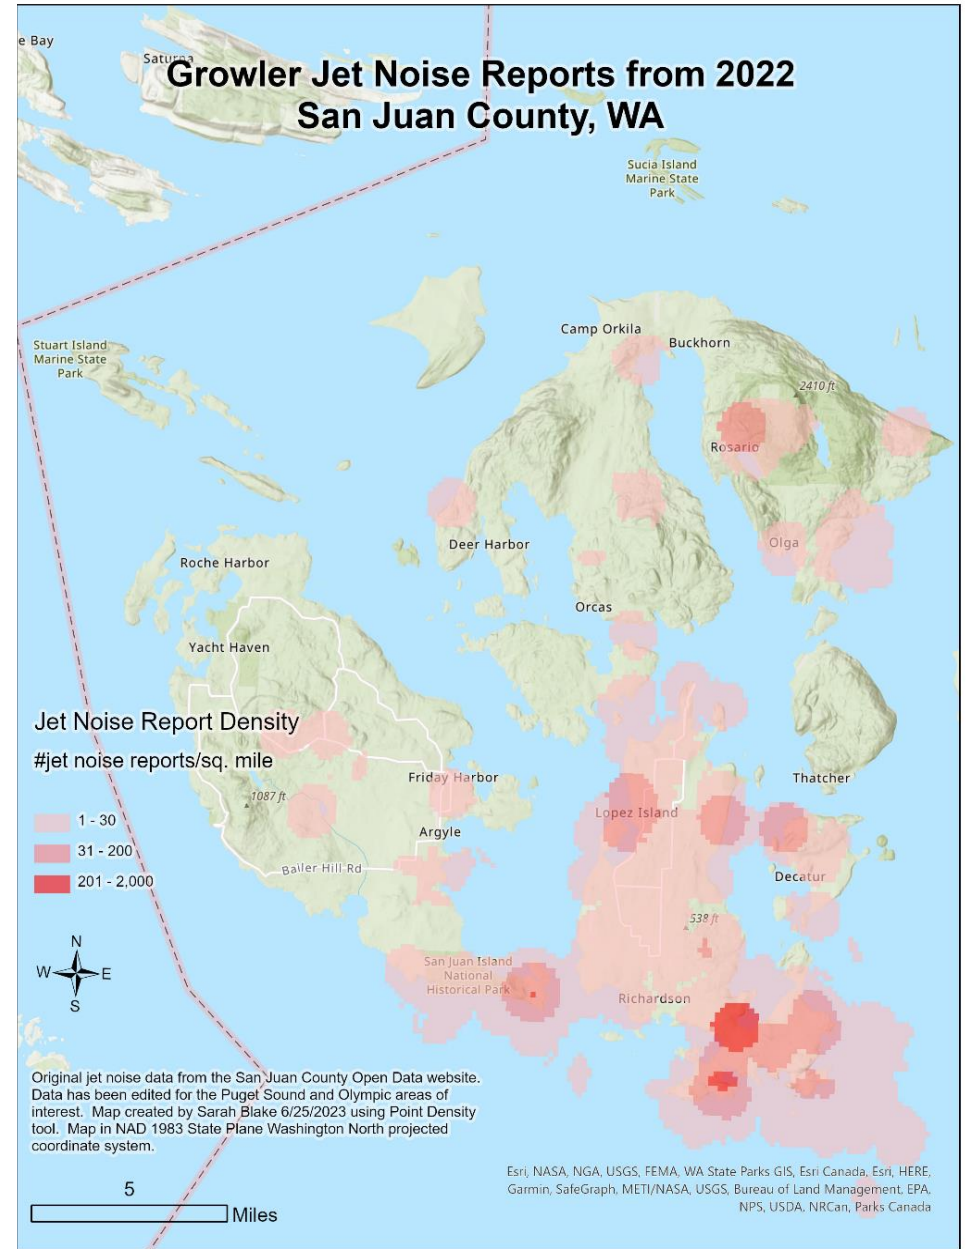

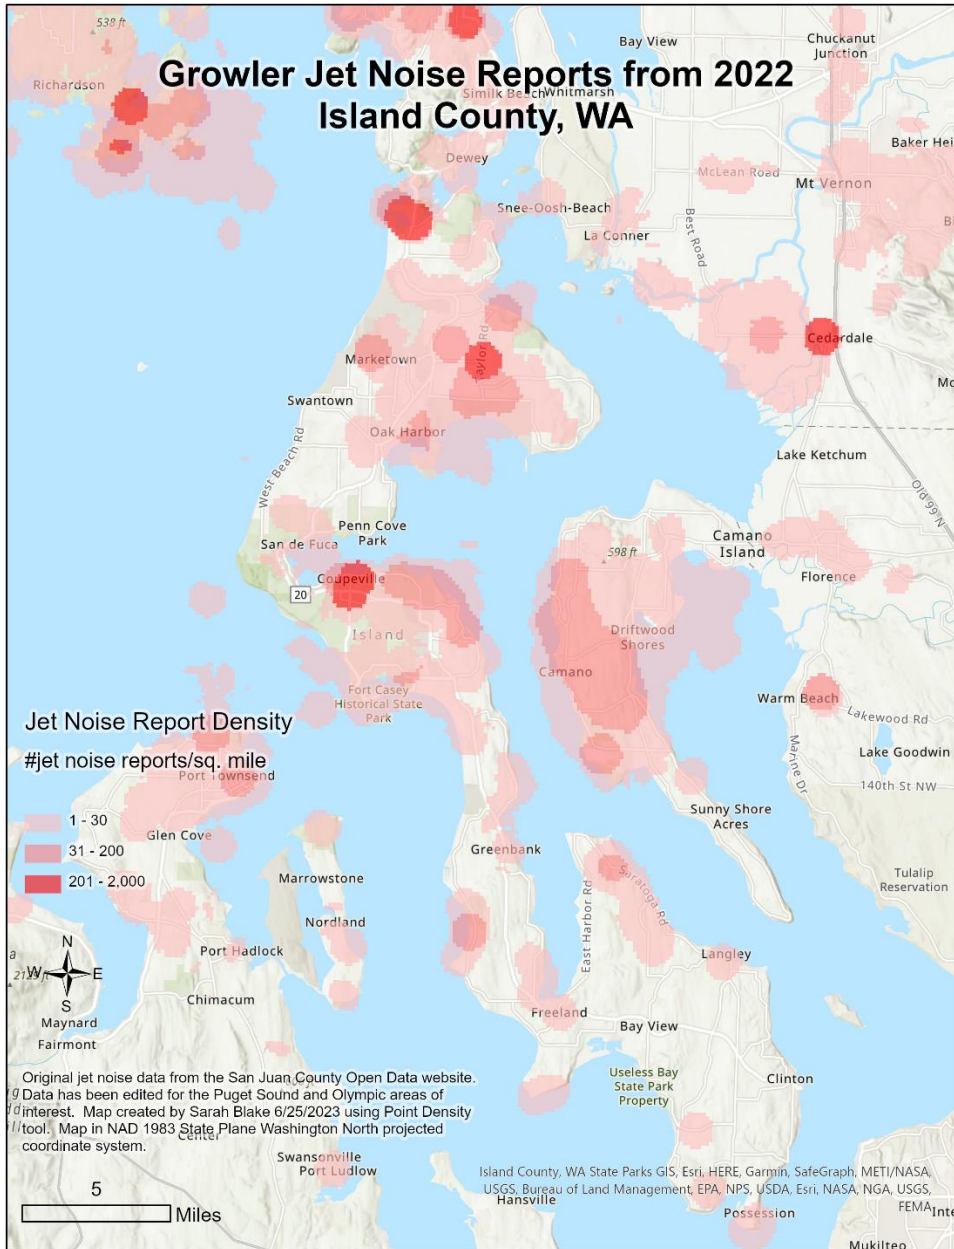

Note the variation in noise experienced by days and by location. The Navy persists in using “annual noise averaging,” significantly underestimating the impact of jet noise. There is no “average” noise felt by residents in this region. The noise is variable and unpredictable.

For example, submissions that report noise 11:00 am through 11:59am are clustered in the 11 o'clock hour. Note the variation in noise experienced at different times of the day. The Navy persists in using "annual noise averaging," significantly underestimating the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.

Referred to as a “density map”, this picture, using 15,176 noise reports submitted by users in 2022, offers a view of noise reports in the region. Impact hits **San Juan, Island, Skagit, Clallam and Jefferson counties**. Of particular note is the reach of Growler Jet noise to the Olympic Peninsula, particularly the Olympic National Park/Forks area. On the next page, parts of the map are enlarged for a view of San Juan County and Island County. These maps are reduced to fit the page. A density map for 2023 will be produced within the near future.

Comments Submitted with January and February, 2024, Reports

NOTES:

Some reports indicate decibel level. Lawnmowers, for example, generally produce 90 dB. How would you like to have that running inside your home? Noise over 70 dB for a prolonged period of time is harmful to your ears and can cause permanent hearing damage. Noise over 120 dB can cause immediate harm to your ears.

Some of the people who submit a noise report also list their home address or phone number or e-mail. In this report, those personal identifiers are deleted/modified, as are expletives.

A jet flew over and my house shook & I could not talk inside the house. As I am writing another jet flew over and it was even louder. The entire house shook!

Maybe they were flying lower or the wheels were down. My ear drums hurt!"

Hey Navy peeps. Sounds like you're accidentally terrorizing your own citizens in Mt. Vernon and neighboring towns again. Oh. You're doing that _on purpose_? Wow. That's low.

And a second one low enough to see the star under the wing in 3 minutes. I measured this one at 120db on the ground.

Thursday and Friday the irritating presence of the Growlers persisted for many hours. You folks need to go to China Lake CA or back to Mountain Home ID.

Growlers started becoming obnoxious and anxiety provoking again about 2 weeks ago. Fly overs twice a day were tolerable but now they are hanging around and persist flying over us for many hours each day. Yes, my measured blood pressure rises.

Right over us. Really too LOUD!!

Wow. That's was painfully loud in Mt. Vernon just now. I suspect the people working on the runways at SeaTac don't even have to hear something that loud. That hurt.

Posted this morning to report jet noise. . Funny how a jet just now flew off its path and over my house.

The noise is so bad I can not work from home. There is no where to go on this 40 square mile island to escape and I am not even on the island they fly. The noise is everywhere.

Loud flight. Kids yelling about the jet noise. I went outside because it was so loud in the house. Not sure how to describe, but felt like my brain was rattling.

School night and sounded like the jet was ripping through the house. Made my stomach literally sick

Working from home. Noise stopped meeting and dogged panicked. Directly over neighborhood flying low and off flight path.

Very loud flight, rumbled through the entire house.

Commercial business and having a hard time communicating with staff, customers or focusing on work with the loud flights overhead.

Extremely loud flyover the Mt. Vernon area just now. One of my cats likely hurt himself running down the hall for safety. There's no excuse for that level of noise in a populated area. Move to the desert.

My husband and I were out walking the dog when an aircraft passed overhead. Another had passed in the previous half hour or so and hadn't been so loud, but this one was so painfully deafening that we had to stop walking and cover our ears.

Last ten minutes has been he'll with these f***** jets

And again and again and again

Enormously loud jet over Mt. Vernon.

Back again!!!!

Too bad we can't send video files so you can see how bad it gets

Military Helicopter very low

Been going on all day. Same old sh*** disruptive and irritating.

It has been getting progressively worse the last week . The serious freeze was hard enough on animals and people alike. I hope they can practice elsewhere.

Disruptive to my wife and I, scares my dog who is afraid of thunder and the jet noise. We've heard the jets several times today.

Constant LOUD rumbling

It's been happening all morning. Such a bummer to live 'in nature' and have these sound disturbances.

Don't post there aren't going to be activities this week. Engine runs are disrupting too.

Woke sleeping child

Engine runs can be heard just as well as flights. It's all noise pollution.

Not only was the noise intolerable but one Growler was flying so low that I could smell aviation fuel a minute afterward up on Mt. Finlayson at American Camp!

Nesting eagles flew off at engine run

I am a former aircraft mechanic, and I know darn well what that noise is. It's engine testing because it stays steady. It's not an aircraft flying. Isn't there a way you can dampen this noise or pointed out to the ocean???

"Disrupting sleep

~30 minutes of disruptive sound

they've been loud all day but way but this one is way out of the flight pattern and very very low. Terrible!

More evidence the Navy needs better training. They are flying directly over our house, which according to their flight patna is not supposed to happen. Obviously lost? The Navy needs to move

Constant roar all day. And overhead flights. Lopez island

Direct fly overs Lopez

Hey Navy terrorists. It's really cold out there today. I hope your landing gear freezes up and your jet destroys the runway. Might encourage you to move someplace warmer, like a desert.

Scumbag loser Navy a***** are looping back for another terror run over Mt. Vernon. It never stops.

The Navy is being monumental a***** over Mt. Vernon today. Constant flights producing enormous amount of noise. It would be painful to be outside at all today.

Do we need aircraft that is so loud we must plug our ears to walk outside? It's the 21st Century of technological advances--surely we can have aircraft that is silent even. Why do we continue to put up with this noise pollution?!

Middle of lopez

Scumbag Navy terrorizing Mt. Vernon some more. I see these bastards plan to extend their reach in Eastern Washington. I hope the warnings from people who have had to put up with this crap causes them to back down.

"South Shaw Island. Roaring that shakes the house, inescapable noise is painful to the ears, deeply disquieting. This noise is destructive to all living creatures including marine animals. It is unconscionable to allow this sort of dreadful noise.

South Shaw. Roaring roaring roaring. Hideous noise, so disturbing and disruptive. AWFUL NOISE

Very loud, house rumbling and glass shaking.

We heard a growler passing south to north not long ago, and this sounded like the same aircraft returning to the south, only slightly less loud this time. It startled our dog and hurt our ears.

Worst day in months. Very disturbing.

Would you like to pay for my internet connection!! Thai is disrupting my peace and my streaming! 1/2 a million for my house! And this????

13 out of 10 loud

Actually painful iutside

Continuous blasts all evening. Lopez South end

Direct fly overs Lopez and take off blasts all morning

Direct flyovers downtown Anacortes.

Direct low flights over Lopez center and airport and school. Could not hear people talk

Extremely, extremely....

Flew over my house in Orcas Island

Had to stop and cover ears during a walk in the woods.

HORRIBLE ROARING is shaking the whole house. This noise is truly dreadful, unsettling, unhealthy, disruptive and painful

House shaking blasts

Insanely loud!

Jeezus! How many growlers are flying tonight!?! There is no break in the rumble! Contacting senators!

Jets continuing to fly low overhead, the noise is awful and the sound is frightening.

Lopez all morning

Lopez island. Window's rattling.

Low enough to see its markings with the naked eye and loud enough to cause all the kids in Tursi park to start crying.

Low flying, extremely loud, just above Blakeley and Obstruction Island. My Apple Watch notified me that it is damaging loud noise.

Measured 105db on my phone

Multiple aircraft were passing overhead. The first was so loud that we couldn't carry on a conversation, but had to stop and wait until it had passed. The second was louder -- painfully loud -- and I had to cover my ears.

Outside work requires hearing protection. No VA comp.

Overflights low and Loud

Rattling my windows

Report the noise as this is proof that the navy/government lies. Stick to the schedule. Don't stick to the schedule. Irrelevant. Get rid of the planes.

Rocked the house. Brutal

Shaw Island. It sounds and feels as though jets are right outside the house. Unbelievable roaring and this heavily built house is shaking

Shaw Island. Jets screaming overhead, around and around. Hideous, shattering noise.

South Shaw Island, jets flying overhead repeatedly, flying very low, making huge noise

Super loud in my over a half a million house!!!!!!!!!! Thank you for devaluating my property! Contacting city !

THE FIFTH LOW LOW GROWLER IN A ROW!!!!!! It feels like a WAR ZONE! 🌟🌟🌟🌟🌟🌟🌟🌟🌟🌟

This morning session of pattern 14 was NOT scheduled. We plan our activities around the schedule but Navy breaks the rules yet again.

Too low

Too low

Waves of sound coming across the Salish. Shaking houses, trees, animals, people

Nuts!! This low rumble has been continuous. Find another pattern!!!!!!!!

Continued fly-overs about every 2 to 5 minutes

Disruptive rumbling noise was frequent all day long, starting around 09:00

HORRIBLE ROARING

Loud sustained rumbling. AWFUL noise, extremely disturbing and unsettling. This is NOT healthy

Roaring off and on throughout the day and now into the evening. Horrible, loud, unsettling, destructive noise that overwhelms all other sounds.

Oak Harbor is 30 miles away, yet the growlers' roaring is horribly loud and unsettling. The house vibrates from the growlers. This is dreadful, unhealthy, destructive noise, for humans and for all other animals including marine animals.

"Painfully loud outside, had to cover ears

Lasted awhile "

Multiple times prior to this report

All day again? Noise, noise, noise.

The terrorists are making enormous amounts of noise over Mt. Vernon. I tried to make them ***** with wishful thinking, but they're as impervious to that as they are to reasonable requests that they provide an accurate flight schedule.

Always disappointing to get through an extended weekend and then be reminded that the Navy is out there destroying our homes, cities and lives. Mt. Vernon still being terrorized by jets that shouldn't be flying over populated areas.

I know "Thoughts and Prayers" don't work because the Navy is still out there terrorizing Mt. Vernon. Earplugs going back in. Hooray for another headache.

Navy jets have been flying over Mt. Vernon all day today. My ear canals are aching from having earplugs stuffed in them for the last six hours, but with the Navy terrorizing our region, I can't function without them.

second scumbag navy pilot just flew over and rattled my windows. These losers travel as a pack.

Torture Machines flying over Mt. Vernon.

Could not converse with somebody next to me, inside a building with windows closed, for almost a minute.

ANOTHER LOUD GROWLER OVERHEAD!

1/16/24. South Lopez. ANOTHER BLAST OF JET NOISE AND VIBRATION FROM NASWI HITS US. Murray, Cantwell and Larsen, why do we not hear a peep from you about the Navy's abuse of this region?

11:56am. Jan 16. S Lopez. Another THREATENING vibration shudders through our home & my body as explosive waves of noise come from NASWI. Disgusted with the Navy & their lies. Just disgusted. How do Larsen, Murray and Cantwell live with themselves?

2:15pm. Jan 16. S Lopez. ANOTHER in this all day torture of explosive and pounding jet noise blasts from Whidbey. Continuous abuse from the Navy. Larsen, Murray, Cantwell, where are you on this issue of the Navy's preposterous behavior? Say something.

5:18pm. Jan 19. S Lopez. A Deep deep thundering roar from Whidbey. I felt it in the floor and in my body. Feel threatened. In the first second I thought it was an earthquake.

LOUD Growler overhead

LOUD Growler overhead! Had to turn up my grandson's Snoopy video.

Another LOUD JET OVERHEAD!

Third LOUD JET OVERHEAD!!!

Very LOUD GROWLERS TONIGHT! The noise goes on and on!!!

Shook the whole house, startled animals, upset children... can't remember this aggressive of a flyover. WE AREN'T IN THE APPROVED FLIGHT PATH!!!!

Get your damn jets OUT OF LOPEZ ISLAND AIRSPACE!! You are destroying our hearing with your low fly overs!! We NEVER agreed to be part of your

Wargames practice area!! We have the same rights as Seattlites have...you would NEVER fly low passes there!!

Get your damn jets OUT of Lopez Island Airspace!! You are destroying our hearing!! Leave us the hell alone!

GET YOUR DAMN JETS OUT OF LOPEZ AIRSPACE NOW!! YOU JERKS FLY SO LOW MY WINDOWS RATTLE AND MY EARS RING FOR HOURS AFTERWARDS!! WE NEVER AGREED TO BE PART OF YOUR WARGAMES PRACTICE!! NO MORE LOW FLIGHTS!!

Super loud. My body is vibrating from the inside.

Lopez Village. Jan 8 12:03pm. SCREAMING ROARING jet overhead. Scared me.

This was horribly loud

Roaring over Lopez village

Lopez Village. Jan 16 3:03pm growler over Lopez. Loud and roaring for a long time. What is a Growler doing over Lopez?

Couldn't hear conversation with a friend standing next to me

Impossible to listen to the news on tv

"Super loud all day!

"The jet noise has been especially oppressive the past two days.

It is disturbing to have this dangerously loud noise! "

Extremely loud, flew right over head! Does it have to be this loud, this close?

Most annoying re: Growlers noise is that it feels like we're in a state of war, that our lives are being bombarded with noise because we're at war, and we're not...at least not here evoking the question why ARE we at war? for what purpose & outcome?

Low rumble followed by ear piercing fly over...EXTREMELY LOUD AND LOW FLYING!

Couldn't have conversation outside

Disturbed dinner conversation

We go to war for oil so that boys can practice flying planes that disrupt the peace of us all. Why do we continue to pay for destruction of peace and quiet & love? Will it come down to choosing Growlers and war or the farmers to grow food?

Roaring low over south Lopez

Conveniently hidden just above the cloud deck, growlers disrupting my afternoon with extremely loud noise

Low flying growler aircraft

Low flying military aircraft disrupting our evening.

It's a WAR ZONE in my neighborhood!!! Extremely loud, low flying growler aircraft flying over us and to the east. Totally unfair for the military to inflict this loud noise on Lopez Island and San Juan County.

Low flying growler aircraft disrupting my afternoon

Low flying growlers disrupting my morning

Multiple low flying growler aircraft disrupting my morning

No specific report at this time. But most of the afternoon, growlers flying very low with one flyover causing my ears to ring for an hour after the flyover.

The war continues with multiple growler flyovers

Very loud, low flying growler aircraft

Low flying growler aircraft

Low flying growler aircraft

Low flying growler aircraft disrupting my afternoon

Extremely loud, disruptive low level growler aircraft over our house

Sounds like a war zone. Extremely loud growlers circling our property. This is ridiculous, my ears are still ringing.

It again!

Awfully loud even inside the house.

One jet flew over very low and loud.

We're had 4 Growlers fly over so far today. They have been low and loud.

Several passes across south Lopez. .Miserable dinner

Screaming low over south Lopez

Low over Aleck Bay

2nd flight over south Lopez

It's a beautiful, sunny, crisp day today in Mt. Vernon, WA. The only thing that could completely spoil is the enormous noise of a US Navy Jet screaming overhead and then rumbling for five minutes. Ahh, there it is.

Pretty much continuous torture over Mt. Vernon today. For the last two hours, every time I take out my earplugs, I hear the jets screaming overhead.

Weekend is over. The terrorists are back. Mt. Vernon is back at war.

The POS Navy pilot who just flew over my neighborhood was so low, he cast a shadow! My ears are ringing. These jerks may be able to convince judges that they're doing this for "national security", but there's no excuse to fly over the city that low.

Two more stupidly loud jets flying over Mt. Vernon. Even as an occasional thing, this would be cause for concern, but with it happening multiple times a day, almost every weekday, it's terrorizing.

Low over south Lopez

Low over south Lopez

Over South Lopez

South lopez

South Lopez

Third pass over south lopez

This is the 5th low and loud pass over south Lopez today. The Navy flight patterns do NOT go over Lopez.

"Two passes with blasts over south Lopez

1:42pm. Jan 16, Lopez. Huge rumbling roar from Whidbey and at the same time a screaming jet over us. Hit from both sides by the Navy.

9:58am Lopez. Another rumbling roar.

LOUD JET NOISE DISTURBING OUR NATURE WALK WITH OUR GRANDSON!!!!

8:47am South Lopez. Roaring Growler overhead.

S. Lopez. Now there is ANOTHER GROWLER over us, polluting the environment. NOISE is everywhere. LOUD ROARING>

Lopez. Another rumble and roar of jet action from Whidbey. We live 14 miles away. Why should we be hearing this? Because these jets are TOO LOUD, that's why. Navy continues its bad decision.

S Lopez. Disrupted Day. Jan 16. 12:33pm. Whidbey jet activity is sending WAVES of EXPLODING NOISE that hits our home and shudders through my body. It is prolonged and ongoing NOISE. THUNDEROUS and VIBRATING.

SECOND LOUD GROWLER DISRUPTING NATURE WALK!

1:53pm. S Lopez Jan 16. Another EXPLOSION of jet noise from Whidbey. It feels like the house is rocking. Now there is a jet screaming over us again. Why are Growlers flying over Lopez?

South Lopez. 9:53am, Jan 16. Disturbed by a prolonged rumbling through our home. I was working on computer, startled, thought something was wrong with the washing machine. Oh, no. Growler roaring, which is actually worse.

Lopez. LOUD jet rumbling and roaring from Whidbey. 9:37am.

5:02pm Jan 16, S Lopez. Whether these are run-ups or launches, the excessive noise output is horrifying. The Growlers do not belong here. The noise of this activity is too loud, the blasts of vibrating roars is hurtful.

1:55pm. Jan 16. Loud jet roaring over South Lopez.

5:06pm, Jan16. S Lopez. Growler roaring and screaming over us. What business does that jet have flying over us? We are not on a flight pattern. LOUD LOUD LOUD LOUD.

Mud Bay, Lopez. Growler SCREAMING over our home. 1:16pm Jan 8. Why, oh why, is it necessary for a growler to fly over our home on Lopez? Lost?

4:22 January 8. Lopez. We have been bothered all day by the rumblings and roars from Whidbey. Started at 9 this morning.

Lopez 9:01am Jan 8. The rumbling jets have started. Distracting me from my work.

Jan 16. South Lopez. This is going on all morning. A vibrating roar that I can feel through the floor in my home. My body vibrates. This is scary and upsetting. I am distracted from my work because I cannot help but notice this disruption

Southend Lopez. 9:29am. 1/8/24 Looks like it will be a morning of NOISE. All windows closed, dishwasher going, and yet the jets are in my home.

1:38pm. Jan 18. S Lopez. ANOTHER EXCRUCIATING BLAST OF JET ROAR FROM NASWI.

2:12pm. Jan 16. Lopez. The sky is filled with jet noise. Roaring coming from all directions.

5:36pm. Jan 16. S Lopez. ANOTHER roaring blast from NASWI

One of the most widely agreed upon toxins, EA18G Growler jet noise, is again being perpetrated upon us by NASWI's military authoritarian consciousness of death and destruction.

Another toxic noise event that is designed to inflict pain on every living thing wherever it is heard with life-threatening deleterious consequences, better understood as crap on you we, NASWI, don't. give a damn for you.

NASWI continues to engage in "noise terrorism" unleashed on civilians who live in the Coupeville OLF area.

Please start sending these noise reports to our representatives and demand that the EA 18 Growler G stop flying in the Puget Sound Salish Sea region be relocated to an unpopulated area, perhaps in an uninhabited desert.

At the light by DP State Park- my car shook with thunder, absolutely vibrated from the intense thunder from Growler Jet above- what happened to people outside trying to enjoy this stunning state Park- hearing damage? Mid day on a Wednesday

Density altitude: minus -2100'

S. Lopez, 2:01pm. Jan16. Again, a LOUD ROARING BLAST OF JET NOISE from NASWI. An awful day today.

S. Lopez. Jan 19. Jet noise this afternoon is continuous. The kind of noise that builds tension.

South Lopez. January 8. 1:05pm. Jet noise all day so far. Even heard it (was annoyed by it, so loud) in the Village. The Navy just wants to keep the torture meter high, I guess.

12:51pm. Jan 16. S Lopez. ROLLING VIBRATING THUNDER HITS US AGAIN. House is shuddering and so am I.

S. Lopez. Rumble & deep throbbing vibration from NASWI. Is it morally right to place these jets here, where 14 miles away their take off (or engine run-up) activity rattles our home? Do you get it? 14 miles away! What is it like closer than that?

South Lopez. Jan 16. 12:14pm. REVERBERATING, PERCUSSIVE, THROBBING, VIBRATING WAVE OF JET NOISE TRAVELS 14 MILES FROM NASWI TO HIT OUR HOME. This has been going on all morning. This is abuse by the Navy and their misplaced patriotism.

2:24pm Lopez Jan16 skies filled with jet roaring.

The noise is so loud that I cannot be outside.

"Airplanes circling non stop

Very disturbing"

"I am a contractor working at 612 cape st mary across from naval base

Super load all morning

Engines rumbling non stop"

Worst the Growler noise has been in awhile. Visitors were amazed at how bad it was...holed up inside.

The whole house shakes. Night before last, they were still flying at 10pm. Too many flights every day this week to report them all, it's exhausting

SE Lopez. Thought I would walk outside after days of enforced inside-activities due to snow. Big mistake. Jet noise everywhere from the terrorists at NASWI.

1:27pm. S Lopez. Jan 19. Cloudy, so I cannot see it, but I can certainly HEAR THAT LOUD GROWLER overhead. First screaming, then the deep roar.

1:50pm Jan 16. S, Lopez. When I am in a room in my house that has no exterior walls and no windows and I can still be plagued by loud jet noise from Whidbey, there is something really wrong. And it is the Navy that is wrong.

It is very cloudy, and I do not know what is up there, but it is one VERY LOUD ROARING jet. My guess is a growler based on the noise. A high-pitched scream and loud swooping roar, quite characteristic of a growler, Jan 8. Lopez.

Lopez. 5:38pm. Sounds a lot like a growler overhead. It is dark, so I cannot see, but I can hear the sky being ripped apart

S. Lopez. MORE ROARING JET NOISE. 4:56pm

S. Lopez. LOUD LOUD jet noise in the skies. Sounds like Growlers just swirling around. The noise comes from all parts of the sky. Jan 19.

Lopez. ANOTHER rumble and roar from Whidbey. 5:05pm

South Lopez. EXCESSIVE NOISE AND VIBRATING RUMBLE from Whidbey. Jan 16 10:29am. It is unnerving. Feels like an earthquake. The NAVY is abusing this region.

1:08pm Jan 16. S Lopez. A Huge roaring explosion from Whidbey. The jet roar just rolls into our home. Invasive and disgusting Navy behavior.

S. Lopez. Jan 16 1:51pm. ANOTHER ROARING GROWLER OVERHEAD.

3:31PM. S. Lopez. Jan 19. The thundering noise continues. Jet noise marches right inside our home.

1:32pm. Jan 16. Hell of a day. Again, Jet roaring causes waves of vibrating noise to slam into us. I should be doing a walk outside, but I would be crazy to be outside with this noise.

Screaming and roaring jet over south Lopez.

"still can't hear myself playing my violin! so frequent!

trying to play my violin and can't even hear it over the jet noise!

Excruciating today. Even more than normal. Perhaps the navy should pay for our hearing aids?

Many extremely loud flyovers today.

"Low and Load as if burning fuel

Low slow nose up high throttle fuel burn manouver

Two or three heading north from south. So loud I could not hear myself yelling

One, possibly two Growlers above the clouds, flying north to S/SE, excruciatingly loud, Cape Saint Mary area, Lopez Island, Washington.

Cape Saint Mary area Lopez, Island, Washington.

One of several engine runups this morning

Multiple Unending direct fkyovers

I want to know if anyone is actually receiving this. Please email me at

Constant engine noise with no letup

Defeaning. Covering my ears did not help. Beyond horrible to inflict this type of noise in other beings voluntarily.

"Direct flyovers plus other engine noise ever since we woke up this morning

Ceaseless nouse"

Fkyover

The plane was flying really low right over the city and woke me up

The planes have been disturbing my sleep all morning.

Been going on for a while today.

Loud, disruptive, reverberating for 2 minutes

Been flying all afternoon and getting louder

continuous, disruptive flying over for the last 15 minutes

Loud aircraft overhead disrupting ability to hear inside house.

Measured 115 dB on my phone

Many flights overhead some louder than others, but deafeningly loud, been going on for over an hour of assault. Why are we attacking our own environment? Why am I paying taxes to be assaulted by noise?

another day of creepy thunder- constant, waxing waning. Such anti-peaceful feeling, simply disquieting and it's just constant, thunder from the south, heard in Anacortes near ferry terminal- Wednesday morning. Horrid

Unacceptable!!

Navy Growler noise is UNWELCOME here!!!!

Terrible threatening thunder - shaking the skies every few minutes, ugly mean sounds that are very disturbing. mid- morning Anacortes near the Ferry terminal on a Tuesday- should be a peaceful Tuesday.

Very loud metallic screaming overflight- Tuesday afternoon, Anacortes near the ferry terminal. Couldn't hear the phone conversation I was trying to have.

Get your filthy God forsaken jets out of our lives Navy!!!!!!

Successive growler fly overs today mid day on a beautiful Friday. Not too low to the ground but it sounds like an enormous deranged metal vacuum cleaner in the sky, tinny shrieking roars. Awful. Anacortes near the ferry terminal.

Growler banking overhead! GEEZ THAT'S LOUD!

LOW LOAD GROWLERS overhead. Can't hear our music or our voices!

Night fly overs are the worst! Very LOUD LOW GROWLERS TONIGHT!

Second day of extreme JET FLY OVERS!

"THE LOUDEST GROWLER FLY OVER I HAVE HEARD RECENTLY!!!!

Too loud for humans and all Salish Sea creatures. This is a real problem!"

12:23pm. Out walking. S. Lopez. Loud jet roaring in the skies. Unpleasant to be outside. Not only is it very cold, but it is NOISY!

January 8. Lopez. What is this? Engine run-ups? Launches? Whatever you fools are doing, it is too loud. These are the WRONG jets for this region. People live here!

12:39pm. Jan 16. S Lopez. There is no let up. Wxcessive rolling thunder of jet activity from Whidbey continues to pound us. As the house vibrates, what is this vibration doing to our home's structure These growler jets have no place in this region.

1pm Jan 16. S Lopez. the onslaught continues. ROARING RUMBLING VIBRATING JET NOISE SLAMMING INTO OUR HOME.

5:17pm. Jan 16 S. Lopez. ANOTHER ROARING BLAST OF JET NOISE FROM NASWI.

Intense thunder- shaking my home from the south side- constant threatening thunder, mid-day Wednesday Anacortes near the ferry. Impossible to relax at home.

It is actually impossible for me to comfortably sleep in my own bedroom with this creaking groaning deep thunder that penetrates my home from south 9:40 pm- I can escape this by going to my basement and coming up after midnight. Anacortes

It is bedtime and the navy just fired up the awful creepy thunder again, shaking the south side of my Anacortes home. 9:30 pm near the ferry terminal. Abuse of civilians

Airplane racket essentially all day- thunder and vibration of the house south side - from navy Warcraft- war games on top of civilians. Does not belong here. Thursday, Anacortes near the WSF terminal.

Overflight so loud it is impossible to hear others speaking inside. Anacortes near the ferry terminal. Afternoon weekday

After some hours of sinister thunder to the south this morning, the sky is split apart by searingly loud EA-18 G. Harming hearing and peace and health. Anacortes near the ferry terminal.

Twice while out on my deck- I had to cover my ears with dirty hands from planting a few late bulbs- growlers loud but hidden in the clouds nearby- immediate danger to hearing when outside and close. Anacortes near the WSF terminal. afternoon

Quite loud nearby flight- along guemes channel disrupting hearing in my Anacortes home 7:40 pm Tuesday. Near the ferry terminal.

All day long from about 9:30, off and on awful creepy shuddering thunder from the south. It's the daily abuse of civilians by the us navy. Anacortes near the ferry terminal on what should be a peaceful Wednesday.

Another weekday morning in Anacortes, Thursday, disturbed by creepy deep thunder- from the south, from Whidbey. Disturbing our peace- harming health and well-being. Near the ferry terminal

Awful creepy deep roaring buffeting my house from the south, off and on all morning and going strong at noon, Thursday Anacortes near Washington Park. Disconcerting

Much of the morning is marred by sinister deep thunder- penetrating my Anacortes home- Monday near the ferry terminal. Awful and deeply disquieting.

1/16, 12:18pm. S Lopez. One after the other, rolling earthquakes from NASWI. The house shudders. The vibrating noise is disruptive. Like a bomb

has been dropped nearby, causing a 30story building to shudder and collapse. This is what it must be like.

12:24pm. Jan 16. S Lopez. This vibrating rumbling loud jet noise is egregious. It is continuous. Disruptive.

12:54pm. Jan 16. Totally miserable. ANOTHER prolonged blasting jet roar hits us.

12:55pm. S Lopez. Jan 16. ANOTHER JET ROAR AND VIBRATION. LIKE CONTINUOUS EXPLOSIONS. INCESSANT.

Hideous thunder+ echoing up from the south. 7:30 pm Anacortes near Washington Park- such disconcerting sounds, threatening . This often goes on for hours. This training belongs far from civilian population centers.

Yet another jet low enough to clearly see the details on the plane.

Extremely loud flights overhead, I just want to watch tv in peace and I can't hear the sound. These planes are terrible, and the product of an insecure set of people who think loud is right.

Low flying growler aircraft disrupting my evening

Low flying growler aircraft disrupting my morning

Low flying growler aircraft with gear down

Deafening loud flight overhead this is cruel to do to the people you are sworn to protect, you are breaking your oath

Second one at a similar altitude but less throttle "only" 92db this time.

Extremely loud growler overhead, although I am assuming its a growler, its dark so can't see it, I can't hear the Husky game when its going overhead, you suck.

Absolutely deafening flight overhead. Stop the assault on your own populace. Please.

thunderously loud flight overhead, this is awful, there is no way this is not harmful to people, animals and nature. please stop flying these over populated and environmentally sensitive areas

very loud flights overhead disrupting listening inside the house, many flights, but can't see the planes due to clouds, sounds like Growlers though

5 jets in 15 minutes...

Before the rumble even fades there's another one.

Third one this morning

Another one super low

Measured 102 dB on my phone. I saw the plane too and it was much larger than my thumb indicating it was only a few hundred yards up.

They're really nuts to butts tonight

Very hard to do business when we have to stop talking and using phones every 10 minutes.

Second one today flying low enough to see the livery.

Growlers flying over my Oak Harbor neighborhood on a Sunday evening! Drowned out the noise from my washing machine which I was just one room away from.

They've been coming through nuts to butts rattling windows and scaring animals.

High-flying Growler jets and the noise are not ambient sounds that belong in a pastoral setting and have absolutely no place in a very quiet country setting. The NASWI has a moral consciousness disorder.

I had a heart attack a few months ago and these low flying growlers are giving me severe chest pain as they rumble my home.

A second plane, same flight path, less than 5 minutes apart directly over our house.

930 at night, a finale I hope to days of jet noise. When they fly, we can't talk or listen, to anything, and we never know when they will fly. The noise is non-significant, the Navy says. No. It's always significant.

Repeated, ongoing flights overhead. The house shakes and human interaction stops until they go away. We never know when they will arrive or how long the noise will last.

Loud flyovers in the afternoon. Just when you think they have stopped, another one or two come over and rattle all the windows. Nothing gets done when a jet is overhead.

Screaming and whistling, and shaking the windows, too. Trying to work in the office, but have to listen to jets, instead.

I have just returned from the hospital with a broken arm and leg. All I want to do is rest and sleep. Not possible with these jets screaming overhead.

Noise is starting early today.

Starting fclp at OLF. Going to be a long, loud evening.

"Still no peace.

Jets still doing fclp at OLF."

Hikers all through Hoypus peninsula of Deception Pass park were covering our ears repeatedly and steadily with Growlers overhead for an hour or more. Often two at a time. Ear splitting. Earth shaking. This is a natural area, not a war games arena!

Check schedule, see "late afternoon," plan my day accordingly, 9:30 am jets show up. Super respectful, thanks to everyone involved.

The complete lack of respect the navy continues to show to Whidbey Island communities by flying these unbelievably disruptive flights during weekday business hours boggles the mind.

Loud flyovers at Hoypus 11-1130, no peace, no quiet. In the State Park.

Middle finger emoji

Jets are scheduled for late afternoon and have been terrorizing Coupeville all morning

There were many more this day, but I was unable to record times while working outside, which was torture.

Loud roaring growler over downtown Anacortes.

Extremely loud babies trying to sleep

Find straight out of my house terribly bad

The more I call in and report it the more they dive, bomb us like a war zone . We have old people with dementia running out in the streets we have babies that can't wear earplugs, our ani live between XXXXX & XXXXX lagoon

Who is Logan from a sound sleep for me staying out of our house?

Woke me up again this morning. Fily over my house extremely loud I work night shift. I need my rest.

Makes it impossible to work from home

Disturbing work from home

Flying straight over our house disturbing activity

Extremely loud called and told them we have a sick person that needs to rest gave them my phone number. I've been doing this to us for five years and no contact back.

I can't hear my meeting. My cats are both terrified and are fixated on trying to figure out what is causing our house to rumble. This needs to stop. Plenty of space to fly that isn't occupied by residents like this. And the environment impact... Ugh

XXXrd Coupeville

Thundering 80 plus decibels in the house 100 outside. These are not living conditions. For years the planes flew over the water, now they fly directly over the houses. 100 yards to the east and we can coexist. Shameful attitude by the Navy.

In a meeting with a client and jets are roaring overhead. So loud we have to stop talking, every 30 seconds, and wait for them to pass. Several came so low the house shook; we feel it in our bodies. It's unsafe. Bad for humans, bad for business too.

We live at HXXXXX Lagoon and since about 2:30 pm the growlers have been flying this pattern six times for around 30 or more minutes each session, with littler time in between.:. It is not windy so why can't they alternate patterns.

Your nervous system has not a clue that the loud and deep rumble is not a treat . When it feels like a tank or freight train are going to bash through your bedroom wall and kill you .No you have to convince your mind you are safe ! Only a Growler

Wow Sunday night ! Bedtime for kids ! They have school in the morning!

LANDING LOOP, multiple aircraft.

Roaring low over S Lopez

Screaming over south Lopez

Second low and loud pass over south Lopez

South Lopez

Pass after pass after pass! Just painfully LOUD

Nearly constant overflights since around 9:00 am this morning! Low fly-byes with the last one DIRECTLY overhead at a few hundred feet.

Extremely loud roar from Growler low overflight!

ALL MORNING LONG!!!

Multiple GROWLERS running touch-n-go landing practice, looping well out over Saratoga Passage. Very loud and disturbing.

Ear shattering overflight

Landing practice began just after 8am with very disturbing jet noise.

Very loud overflights

REPEATED OVERFLIGHTS

Growler's making noise

GROWLER landing practice w/ multiple aircraft ... CONSTANT, EXCESSIVE NOISE!

Right over the house and unbelievably loud. Get the hell out of here

Multiple GROWLERS looping over the practice landing fields. Horrific NOISE!

Ear shattering low overflights. The Growlers repeat the overflights every 10 to 15 minutes.

Growlers making life hell

91.4 dB on dB pro app. Time for USN Command to relocate training to El Centro.

Walking through the kids school, the jet noise was so loud. Get in my car now o leave and I can feel the vibration. This is not right. When they fly it is constant.

Constant jet noise all afternoon from Growlers landing drills.

Growler's flying making a lot of noise

Extremely loud growler flight

Growlers making a hellish amount of noise

Growlers flying loudly and making so much noise

Came to I pick up kids from preschool. Jet flew low and directly over kids and we are in Camano. This is not right.

Really loud growlers shattering noise

Peace on earth is not what you get when the ear shattering growlers are flying

Really loud flyover by growlers

Growlers tearing up the sky and our eardrums

Geez this is too much. Growlers making so much noise

My God this has to stop. Growlers need to move to remote location

Loud

Loud flight. Heard throughout house and would have been uncomfortable to be outside.

Another evening in hell from growlers flying

Constant jet noise. I am trying to work and can not focus. I have a lot of important things I get done and may have a o go home b cause of the constant noise.

Trying to work. Flight could be felt under my feet. Noise stopping all conversations until flight passed. It is hard enough running a small business.

Can't even eat a restaurant. Loud

Tandem jets were upping over the only shopping center on the island

So loud in our work office that if this continues I will have to leave work.

Continuous loud warfare sounds over my house. I can't report everytime because it is too frequent.. But noise from these growlers is outrageous and I am frankly appalled by the lack of response from our government representatives.

Over library and places to eat

"Constant roaring of engines...like they are doing engine jet trials on Whidbey but the sound is being carried over to east side of Camano. Horrible ongoing noise.

All day. "

Ridiculously loud and intrusive

So loud that I was in my car and you could feel the vibration of the jet in the floor of the car as we sat in the parking lot of QFC

Very loud, very low, had to o cover ears because it hurt.

Getting chicken food. Very loud jet flight. Stopping normal conversation. How the jets stop daily activity.

Unless you a***** are planning to ram those jets into the mountainside, it's be great if you'd stop terrorizing us with them!

I hate the Navy so much. Nothing reminds me it's "Monday" more than an insanely loud jet flying over Mt. Vernon.

Don't you f***** terrorists ever stop? Yet another extremely loud jet right over Mt. Vernon. Too loud, too low, too fast, too inconsiderate

Being a part of the military shouldn't absolve you from needing to operate in a manner conducive to life. That last flyover Mt. Vernon was painfully loud and unnecessarily low. You can and should move to the desert.

It's the Sound of Terrorism over Mt. Vernon. The Navy doesn't have to be here. They're here because they're cruel and selfish.

Navy terrorists destroying Mt. Vernon again. Extremely loud. Having to wear earplugs.

No details. Just want to say these jets suck and the flyovers are harming me right now. That's all. I know they don't care.

The Navy are pure scum, top to bottom. They're not heroes. They're terrorists.

And right on the heels (fins?) of the last jet, there's a 2nd Navy wanker flying too loud and too low over Mt. Vernon.

Extremely loud Navy jet flying over the Mt. Vernon airport.

F*** the Navy! Ram those god damned jets right into the side of a mountain! So sick of this

The Navy's been out terrorizing Mt. Vernon all day today. The first one this morning was so loud and sudden, I had ringing in my left ear for about 30 minutes.

F*** the Navy!

It's been a pretty quiet week, but now the Navy is back to terrorizing Mt. Vernon. It's such a disturbing sound.

Navy terrorist out near Mt. Vernon again. It's a lovely, peaceful evening with the snow falling. Too bad the terrorists ruined it.

Found a Monkey Paw in an ancient mine. Spent the first wish sending the Navy bases to the bottom of the ocean along with the commanders who willfully tortured the region. Sadly, I then woke from the dream to the horror of jet flying over my home.

Navy terrorists still flying all day today. It's been hell over Mt. Vernon.

Hey Navy peeps. Sounds like you're accidentally terrorizing your own citizens in Mt. Vernon and neighboring towns again. Oh. You're doing that _on purpose_? Wow. That's low.

I don't know what's louder, the sound of a jet crashing into a mountainside or the sound of a jet flying over my house. But I'm angry enough right now that I can tell which sound I'd **prefer** to hear.

Sound of distant jets making bursts and waves of ominous noise. The location doesn't really matter as I'm sure it impacts half of Skagit County.

Extremely loud Navy jet over Mt. Vernon just now. Might be another one coming this way or just the rumbles still continuing. Hate the Navy so much. Terrorists.

I think I just bruised my ear trying to stuff an earplug in before a Navy pilot could aim the tail end of the terror device at me.

My ears are already aching from having ear plugs stuffed in them for the last hour. The jets are still flying. Still disrupting. Still terrorizing. Still too loud, too low. They'll be like this all day. And then they'll start again tomorrow.

Shaping up to be another earplug day in Mt. Vernon.

Navy pigf*****.

Painfully loud Navy jet flying over Mt. Vernon. Unfortunately, this was not followed by the blessed sound of a Navy jet *****. Maybe next time.

Scum bags are still out torturing Mt. Vernon. Still not ***** into mountainsides. Sad.

Starting writing this complaint with "Disrupted Activities" but over the course of a minute, it went to "Extremely Loud" and then "WTF IS THAT?". Do better, Navy. This isn't acceptable nor is it necessary.

Hot on the tail of the last one, a second extremely loud jet just flew over the Mt. Vernon area. Enormous amounts of noise energy. Hard to even tell which direction it's coming from because the whole sky is exploding.

All right, scumbag Navy. You win. I guess it's another earplug day in Mt. Vernon.

I hope it's discovered that being around Growlers causes debilitating cancer. You deserve to have your lives ruined too.

More terror over Mt. Vernon

The jerks in the US Navy are working double time to make this evening in Mt. Vernon terrible. So loud out there.

Was enjoying a beautiful late morning outside in the much needed sunshine. Then the US Navy messed it up with their torture devices South of Mt. Vernon.

Just watched two Navy jets fly over Mt. Vernon. Way too low. Way too loud. Way too inconsiderate. Get the hell out of populated areas with those things.

106db measured on my phone.

On going all day and still hearing at this time inside my house

Cape Saint Mary area, Lopez Island, Washington

Cape St Mary area, Lopez Island, WA.

12:55pm, Jan 15. S. Lopez. Huge rumbling and vibrating roar from Whidbey. Disturbing.

4:37pm. Jan 16. S Lopez. ANOTHER rumbling roar and vibrating blast from NASWI.

4:54pm, January 16. South Lopez. The disruption continues. The roaring blasts and waves of noise continue to hit our home and penetrate the walls. We are inside yet we may as well be standing at a bombing range.

S. Lopez. Jan 16, 12:44pm. All morning, and now into the afternoon. Rolling thundering waves of vibrating jet roar hit us. Shuddering. Headachey, making me ill.

LOUD JET OVERHEAD

Minutes long aircraft noise

Pound Growler

4th LOUD JET OVERHEAD!!!! They are flying lower each time.

Another day that feels like a WAR ZONE IN THE SAN JUAN MONUMENT!!!
